UPDATE TO ALL FAMILY AND FRIENDS

Hi, the daily life of St. Pat's new normal is starting to settle into a routine. We are very fortunate to have very dedicated staff who are providing care to the residents and finding ways to keep you and your loved one connected. I know that everyone would love a daily connection but we just cannot meet that expectation. These are difficult times and we know that everyone is missing visiting your family at St. Pat's, and we miss you too. We are making sure that they know that you are not visiting them by choice but because you are not allowed to visit right now.

We have been successful at getting additional staff in the home to fill in some of the gaps of your visits. I can assure you that residents are getting good care and as much love as we can give them.

Public Health has informed us that suspect outbreak on Wexford is now over. Yeah! Galway unfortunately remains in outbreak as people are still having some cold symptoms.

We are continuing to look for ways to brighten peoples days here. A group of staff suggested trying to set up a dance party with a song over the public announcement system at a specific time for everyone to dance. We are getting this set up! We could let you know when we have it going and you can join in at home! We would appreciate any suggestions that you may also have as well, pyjama day, hat day, etc.

Remember Covid-19 is contagious but:
