UPDATE TO ALL FAMILY AND FRIENDS

Hello, the restriction for staff to work in only one health care organization was implemented at St. Pat's a few weeks ago and is now a requirement for all Homes across the province. This measure is to reduce the risk of the virus spreading between health care organizations.

Once we put this measure into place for our staff we also put this into place for the nursing agencies that provide staff to St. Pats. Agency staff coming to St. Pat's are only working at St. Pat's and not in other health care organizations.

We do not have any COVID-19 positive test results at St. Pat's as of today. The staff are continuing to work very hard to keep the residents healthy and happy.

Thank you for continuing to care virtually,

Janet Morris
President & CEO
