UPDATE TO ALL FAMILY AND FRIENDS

Hello, we continue to hear about an increasing number of LTC homes and retirement homes with cases of COVID-19 cases, in particular we are hearing in the news about those with a large number of cases and with a significant number of deaths. This is extremely sad and frightening, and I send my condolences to the residents, families and staff.

Unfortunately, we do not hear in the news, that there are many homes identified in COVID-19 outbreaks with only one staff or resident with COVID-19. There are also LTC homes who have contained positive cases to a small number and have resolved the outbreak. We can learn from these experiences.

The very best scenario is to keep the virus out, which we have been fortunate to do and we will continue to do our very best to keep it out. We have no positive test results for staff or residents at St. Pat's to date!

Keep safe and well,

Janet Morris
President & CEO
