UPDATE TO ALL FAMILY AND FRIENDS

Hi, I am hearing it is a quiet day at St. Pat's today from our manager who is on site.

We continue on a regular basis to send in swabs for testing and then await the results. So far, the results received for both residents and staff have been negative. We are COVID-19 free as of today.

As I had mentioned we have a number of new staff who have started at St. Pat's. They are getting to know their jobs and the residents. One of our new staff was playing the piano this week for the residents, filling in for others who cannot be in the home right now. We are finding new talents within our staff!

Challenging times are overcome with creativity and resourcefulness.

Keep well at home,

Janet Morris
President & CEO
