UPDATE TO ALL FAMILY AND FRIENDS

Hello, we were very pleased to hear yesterday from the Premier that people working on the health care frontline, including those in long term care homes, will have their wages augmented by \$4.00 per hour and will receive an additional \$250.00 lump sum payment if they work more than 100 hours in the month.

This is certainly recognition of the unusual times that these staff are working through with compassion and well deserved for the frontline heroes. We are very happy we can support our staff with this funding from the province.

We remain COVID-19 free as of today!

Keep well,

Janet Morris
