UPDATE TO ALL FAMILY AND FRIENDS

Hello, once again I am very happy to report that **we have no positive COVID-19 test results** as of today.

We are finally seeing some signs of spring. The Larry Kelly Family Garden and the balconies are open for business with the furniture now out and ready for people to use as the weather warms up. The staff will be bringing residents out as much as possible. We will be ensuring social distancing while residents are using the garden and balconies and will be trying to keep residents from one home area at a time in the garden. Although we do not have any confirmed positive COVID-19 cases, we are trying to keep residents living on a home area together and not mingling with others as much as feasible.

Have a great day,

Janet Morris
President & CEO
