UPDATE TO ALL FAMILY AND FRIENDS

Hello on this beautiful day and to what makes it even more beautiful is that we have no further positive test results as of today.

We continue to very closely monitor all residents across St. Pats for any typical or atypical symptoms and anyone with symptoms is tested and the necessary isolation precautions are implemented. We are taking swabs daily and awaiting test results as a proactive measure. If a resident has a swab taken their family is informed and then notified as soon as we receive the results. It is a very anxious time waiting for the results.

Although there have been some public news reports about potentially doing further surveillance testing in LTC homes we have not received any notice regarding this plan. We will keep you informed as we receive any information.

The residents on Waterford continue to improve and we are very hopeful that this home area will be cleared tomorrow.

I know it is a very difficult time for everyone, the residents, their families and staff but we all have the same goal of minimizing the risk to residents. Thank you for your continued support.

Be well,

Janet Morris
President & CEO
