UPDATE TO ALL FAMILY AND FRIENDS

Hello, we have no further positive cases at St. Pat's. Another day to be thankful!

We are attaching the schedule for the garden strolls in this update. This is also posted on the website. On Monday we will be posting the recreation calendar for each individual resident home area, outlining the programs happening on each home area. You will also see posted on the website, a whole home calendar that includes the garden strolls, the schedule for entertainers and Mass which are broadcast on closed circuit TV within St. Pat's.

Porch visits are a great success but must be on a scheduled basis. We know that you are eager to see your loved one but given the demand we must adhere to a schedule. We ask families not to make separate arrangements with you loved on to meet outside. This has limited the use of the front for scheduled porch visits. There are also residents who would like to use the front area for sitting when they are not scheduled for the garden strolls, however when people are making alternate arrangements to meet outside this limits residents from accessing this space. Thank you for your support in keeping all the residents safe.

During this pandemic we have provided an update daily since March 13, 2020 as a way of keeping all of you informed of what is happening in the Home when you cannot visit. We know that the updates are very important and we are committed to continue with these updates, however, we will be sending them now on a Monday to Friday basis unless there is something that is important to communicate over the weekend.

Have a good weekend and stay safe,

Janet Morris
President & CEO
