## **UPDATE TO ALL FAMILY AND FRIENDS**

Hello, we have no positive Covid19 tests today at St. Pat's. The dining room service continues with a small group in the dining room per meal. The recreation programs on each resident home area have started. You will notice that the on alternate days as the staff can only work on one home area in a day. This is to limit the possibility of exposure of the virus.

The physiotherapy service will soon be resuming with the staff assigned to specific home areas. The program will be modified and will focus on physical activation, range of motion and movement within the residents' room on a one to one basis. The Restorative Program staff will also be engaging residents in more physical activity on a one to one basis. We look forward to having the physiotherapy staff return.

Porch visits are greatly in demand and we know that it is very important for everyone. Please remember that social distancing for those visiting is also very important and that until Friday there should only be a very small group visiting together (less than five).

Take care of each other,

**Janet Morris**
