## **UPDATE TO ALL FAMILY AND FRIENDS**

Hello, we have received no positive test results today. Over 200 St. Pat's staff have been tested on site over the past 2 days, with another testing date on Friday, June 12. We are just starting to receive the results and so far, all of the results have been negative. We will continue to hope for this to continue!

Everyone is working very hard to ensure that we are following all of the public health guidelines, which are similar to those we are obliged to follow in the community, such as social distancing, limiting the number of people we interact with, wearing a mask, excellent and frequent hand hygiene and staying home if you are not feeling well. These will continue to be the new normal for all of us, including within St. Pat's. This does limit how we can do things in the Home but we are doing our very best to resume activities within the public health parameters. I know that everyone has the same goal, to keep those living at St. Pat's safe.

With regards,

**Janet Morris**
