## **UPDATE TO ALL FAMILY AND FRIENDS**

Hello, another day with no positive test results! We continue to test any residents or staff member with typical or atypical symptoms, and our second round of surveillance testing of all staff will happen next week.

The Italian Festival cannot hold their tradition celebration this year, but they are still going to celebrate in a new 'pandemic' way this year. The Preston Street BIA will be holding a parade with the Italian classic cars and the restaurants are providing lunch to a number of long term care home's staff, including St. Pat's. At approximately 10-10:15am. tomorrow the cars will be arriving at St. Pat's for a drive through our parking lot. We will let [those](#) residents know who are independently able to go out and physically distance from each other. We will also be supporting residents who require assistance to view the parade based upon the staff and space availability to maintain physical distancing outside and in the elevator.

Be well and enjoy a warm weekend!
