UPDATE TO ALL FAMILY AND FRIENDS

Hello, we remain Covid19 free today with no positive test results.

There are many family members who do not live in the city of Ottawa and as such have different options for Covid19 testing. I had a message from a family member who found a drive through testing site in Casselman for example. Every public health jurisdiction has different options and alternatives available. Remember to check out these options in your area.

Yesterday the Ontario government extended the Emergency in the province to July 15, 2020. This will mean that the next phase of visiting would be therefore extended to July 22 at the earliest (one week after the lifting of the emergency in Ontario). If the Emergency is extended again, the date for the next phase would also be extended. This next phase will expand outdoor visiting to 2 people at a time with each resident and open LTC Homes for indoor visits for essential family caregivers as outlined in the Ministry of Long-Term Care, Resuming Visits in LTC Homes. Our outdoor garden visits continue.

Thank you for your continued support of the staff and residents at St. Pat's.

Stay safe,

Janet Morris
President & CEO
