UPDATE TO FAMILY AND FRIENDS

Hello, today I am happy to report that we have no Covid19 cases.

The outdoor garden visits continue and we are now happy to be able to have families book for more than one per week, space permitting.

The Ministry has identified the following guidelines for anyone visiting during an outdoor visit:

1. All visitors must have tested negative for the novel coronavirus in the past two weeks prior to the visit and will be asked to attest to this during screening.
2. You will be asked to complete a health questionnaire prior to entering the garden (screening form).
3. During the visit, visitors must wear a face mask which they should bring, maintain a safe physical distance of 2 m., and wash or disinfect their hands.

We have had a few questions regarding weather and garden visits, unfortunately the visits will be need to be cancelled in extreme weather conditions. (Eg. Thunder storm, heavy rain, temperature in the garden above 32C in shaded areas). These criteria are being used to ensure the safety of the residents, staff and family members.

Be safe and keep up the physical distancing practices to keep everyone safe

Janet Morris
President & CEO
