UPDATE TO ALL FAMILY AND FRIENDS

We continue to be Covid19 free at St. Pat's.

St. Pat's is starting to welcome new people moving into the home as we are outbreak free. The process for all new admissions is that they must move in within 24 hours of a negative Covid19 test result, and then they are on isolation precautions for 14 days. It is a difficult way to move into a new home, but our staff are doing everything that they can to make them feel welcome.

We continue to monitor the weather closely for the garden visits and given it is forecast to be very hot and potential thunderstorms, we may need to cancel some visits for safety reasons. If a visit needs to be cancelled you will be called and can rebook this visit at the next available spot.

Be well,

Janet Morris
President & CEO
