## **UPDATE TO ALL FAMILY AND FRIENDS**

Hello, we are happy to report that we continue to remain COVID-19 free!

Janet is on vacation this week and the updates will be coming to you from the Leadership Team.

We are still awaiting guidance from the Ministry regarding further COVID-19 testing for staff. We are prepared to test all staff this week, but require the go ahead from the province in order to receive the swabs from Ottawa Public Health.

The weather is a little bit cooler today with much less humidity. We are hoping the possible thunder storms hold off until after the garden visits this afternoon.

Weekly, an update is created for our residents to explain any changes in process or routine related to the COVID-19 situation. This update is printed and distributed to residents with support staff assisting by reading it to those residents who are unable to do so. The intent of these updates is to keep the residents informed of what is happening in their home and to relay any changes that have or will happen.

Stay safe and well,

**The St. Pat's Leadership Team**
