UPDATE TO ALL FAMILY AND FRIENDS

Hello, we remain Covid19 free! The staff testing is occurring again this week.

Exciting news from the Nutritional Services department! We have installed plexiglass dividers on all of the tables on Waterford which allows 16 residents in the dining room at each seating. Waterford has started as the first home area and over the next few weeks all home areas will be converted and we will progress to expanding the dining room service on all home areas.

The plexiglass provides protection and allows two residents to sit at one table. It also allows for one family member to meal assist their loved one in the dining room provided they stay behind the plexiglass divider and sit beside their loved one behind the plexiglass. While we appreciate the help, family and visitors can only help their loved one not other residents. When the residents are eating they are not wearing a mask so it is extremely important that everyone else wears their mask properly.

We still ask that outside of meal times that family members and visitor remain in the resident room for your time together and not in common areas of the building to maintain the necessary physical distancing. Residents, family and visitors can exit the building for some outside time as well with appropriate attention to keeping at minimum 6 feet away for other people.
