## **UPDATE TO ALL FAMILY AND FRIENDS**

Hello, we have no additional positive cases. We are thankful and appreciative of the hard work that staff are doing to keep people safe.

As many of you know as you are coming in to see your loved ones as designated caregivers, working with all of the PPE on is hard, time consuming to get on and off and hot!

We are all very fortunate to have wonderful staff who put the residents first during these difficult times.

Be safe and careful – Keep your physical distance, wash your hands, stay in your ‘bubble’ and wear your mask.
