UPDATE TO ALL FAMILY AND FRIENDS

Hi, here is the update for today:

Hello, we have received no further positive Covid19 test results as of today.

Ottawa Public Health has received our request to modify the isolation precautions on Dublin, Donegal and Kerry, but we have not yet received a response from them. We must await this response before changing the isolation precautions therefore full isolation precautions continue until we receive a response.

A few weeks ago, we had sent with an update the educational resources for the use of PPE, hand hygiene and respiratory etiquette. We are attaching these again with our update today as we can all use refreshers. Please take a moment to review the information and watch the videos.
