## **UPDATE TO ALL FAMILY AND FRIENDS**

Hello, we have no further positive cases for any residents or staff members for which we are very thankful.

Carlow and Waterford remain on isolation and will continue for a 14 day isolation period which started on Oct. 17. All of the residents on these 2 home areas have been tested this week and we await the results. Good thoughts for continued negative results!

All of the other home areas must continue to use masks and eye protection, but residents can have their meals in the dining room and have a bit more freedom to be out of their room. The Balconies are open for these home areas to use, one person at a time.

Thank you to everyone for your support and your tolerance as we deal with the increasing case count in Ottawa which has resulted in an outbreak at St. Pat's.

We will provide the next report on Monday, Oct. 26, unless there is something new to send you over the weekend.

Be well and have a good weekend,

***Janet Morris***
