## **UPDATE TO ALL FAMILY AND FRIENDS**

Hello, there are no further positive test results received today. If all outstanding test results continue to be negative, the outbreak will be over on November 1<sup>st</sup>. As always, we must wait for Ottawa Public Health to declare the outbreak over.

The staff surveillance testing has started today for the next round.

Ottawa remains a designated 'red' area by the province, so even when our outbreak is over, visiting will still be limited to the two designated caregivers, and residents will not be able to leave the property. The provincial government will determine when these criteria would be changed.

I would like to clarify the purpose of the garden schedule. These are the timeslots available for a family and resident to go to the garden for some fresh air. There is no need to schedule a time, it is just to provide timeslots so that one home area at a time will be using the garden space. There is no need to book your time with reception.

Be well and stay safe,
