## **UPDATE TO ALL FAMILY AND FRIENDS**

Hello, today we remember those who have served our country and the many who gave the ultimate sacrifice for our freedom. At St. Patrick's Home we have 12 residents who are veteran's and we honor them today and thank them for their service and sacrifice.

We have no new positive cases at St. Pat's today.

We are very pleased to let you know that today Ottawa Public Health has agreed that Wexford will be off of full isolation precautions. This means that residents will be able to leave their rooms, dining room service will resume, and families and residents can use the garden for fresh air on their scheduled times or go to the balcony. Droplet precautions will be required with masks and eye protection in use. This is good news.

Although we remain in whole home outbreak Donegal is the one home area remaining on full precautions.

Be well and safe,

***Janet Morris***
