UPDATE TO ALL FAMILY AND FRIENDS

Hello, we have no new positive cases today. We have received almost all of the staff test results from last week. There 15 results outstanding results of the 398 staff tested, and we hope that we will receive these in the next couple of days.

There is a schedule now posted on each Harvest Room. Families are invited to write your name into the schedule for the 30 minute time slot and have your visit with your loved one outside of the resident's room. Unfortunately, the Harvest Room will not be an option for any home area on full isolation precautions which includes Donegal, Wexford and Cavan as of today.

If you are going to use the Harvest Room for a visit, please encourage the resident to wear a mask while you are going from the resident's room to the Harvest Room and back again. Please do not stop along the way to visit with any other resident as we continue to try and maintain social distancing. Ensure that you are wearing your required PPE, mask and eye protection at all times.

Be safe and take care of yourself,

Janet Morris
President and CEO
