UPDATE TO ALL FAMILY AND FRIENDS

Hello, we have no further positive cases as of today.

The two resident cases on Donegal are now considered resolved and we are very thankful that the residents are doing well. Donegal, Wexford and Cavan remain on isolation precautions.

As of today, there are two staff cases which remain active but all other staff cases are resolved and everyone is doing well. We send the staff who are recovering at home our best wishes for a continued asymptomatic recovery. As with all previous positive staff cases, the Family Council has sent these two staff members a flower arrangement along with wishes for a speedy recovery.

Thank you to everyone for following all of the required precautions, wearing the necessary PPE consistently, practicing excellent hand hygiene and keeping socially distanced. These precautions are making a difference in containing any potential spread of the virus both in St. Pat's but also in the community.

Stay safe and be well,

Janet Morris
President and CEO
