UPDATE TO ALL FAMILY AND FRIENDS

Hello, we have no positive test results today. We remain with one resident who is still considered an active case on Wexford.

Designated caregivers who are visiting residents are reminded that they must now show **proof** of a negative COVID test result. This proof can be a printed copy or a screen shot on a phone or tablet. **The date of testing, name and result must all be visible.** The screeners will base the timing (currently within the past two weeks and starting Monday November 30th within the past week) on the date of testing.

Please also remember that visitors are asked not to arrive or leave during our afternoon shift change from 2:30pm – 3:15pm. This creates congestion at the screening station and adds additional pressures on the parking situation. Your anticipated cooperation is greatly appreciated.

Stay well,

Janet Morris
President and CEO
