UPDATE TO ALL FAMILY AND FRIENDS

Hello, we have no further positive cases at St. Pat's. Staff testing is occurring this week and will occur weekly while Ottawa remains in an Orange/Restrict risk level as determined by the province.

Public Health educational material on IPAC procedures have previously been provided in the Family Updates, however in order to ensure that you have easier access to these materials, we have now included this information on St. Pat's website: <https://stpats.ca/wp-content/uploads/2020/11/IPAC-Education-for-Visitors-FINAL.pdf> Please take a few minutes to review this information regularly for your protection and the protection of the residents, staff and other designated caregivers.

If you are receiving the update and usually provide this information to other member of your family, please let them know that this resource is now available.

In addition, for every resident there is signage at their room entrance identifying what PPE is required for that person. Please take a moment to look at these signs. If you have any questions please ask the RPN on the home area for clarification.

Be well and safe,

Janet Morris
President and CEO
