UPDATE TO ALL FAMILY AND FRIENDS

Hello, Cavan is off droplet/contact precautions as of yesterday, November 29th. Droplet precautions remain in place with masks and eye protection still required.

The residents can go to the dining room for meals as per the schedule, with a maximum of 16 residents in the dining room at a time with the dividers on the table.

The designated caregivers can take the residents to the garden as per the schedule or the balcony for fresh air. Please remember only one resident should be on the balcony at the same time.

Wexford remains in full isolation precautions. If there are not additional positive cases Wexford should be off full precautions on December 3rd. The positive resident is considered resolved now.

We were notified on Sunday that a sitter on Kilkenny was positive from testing in the community. Kilkenny is currently on full precautions as Ottawa Public Health reviews and determines the level of precautions required. We have been in discussion with them and will let you know as soon as we have further information.

Stay safe and well,

Janet Morris
President and CEO
