UPDATE TO ALL FAMILY AND FRIENDS

Hello, unfortunately we have received notice this afternoon that a sitter who last worked on Kilkenny on Friday December 4th has received a positive test result from surveillance testing. At this time Kilkenny will be on droplet/contact precautions, residents are asked to remain in their rooms and meals will be served in the resident rooms, while Ottawa Public Health completes their risk assessment. Garden visits for Kilkenny will be on hold while the home area is on full isolation precautions.

There are no changes on the other resident home areas.

Take care and stay safe,

Janet Morris
President and CEO
