UPDATE TO ALL FAMILY AND FRIENDS

Hello, we are outbreak free at St. Pat's and so appreciative that the residents are able to enjoy some small freedom out of their rooms.

We also have very exciting news about the vaccine. St. Pat's staff will be included as one of the 10 Long-term care homes in Ottawa chosen to be the first to receive the vaccine. Staff are being provided the opportunity to schedule an appointment at the hospital clinic from Tuesday to Friday this week. A second vaccine will then be given to the staff in January. We are very fortunate to be one of the first homes in Ontario to have some of the staff vaccinated for their protection and the protection of residents. We have no information on when anyone else, residents, the rest of the front line staff or families will potentially be able to receive the vaccine, but we will keep you informed as we hear any further news.

Today is a great day at St. Pat's!

Be safe and stay well,

Janet Morris

President and CEO
