## **UPDATE TO ALL FAMILY AND FRIENDS**

Hello, we remain Covid19 free! St. Pat's has been able to take another step in increasing the safety of residents, staff and visitors, with vaccinations starting today. This morning, one of our long term employees, Jo-Anne Miner, was the first to receive the vaccine! Jo-Anne said, "This is will help create a safe space for me, my colleagues, and the residents." Congratulations Jo-Anne for taking this step for everyone at St. Pat's. Check out Jo-Anne in the news!

We know that there are many other staff who are scheduled to get the vaccination today through Friday as part of the 1500 people in Ottawa who have access. We are not yet aware of when the rest of the roll out of vaccines will occur for the remainder of staff, residents and the essential visitors, but as soon as we hear we will let you know.

Our next scheduled update will be on Friday December 18<sup>th</sup>. If there is any 'news' we will send an update as necessary.

Be well and stay safe,

***Janet Morris***

President and CEO
