UPDATE TO ALL FAMILY AND FRIENDS

Hello, unfortunately we have received a Covid19 positive staff test result from the surveillance testing last week. The staff member has worked on both Waterford and Wexford and therefore both of these home areas will now be on full isolation precautions. Everyone on these home areas will be required to wear masks, eye protection and gowns. Residents will be asked to remain in their rooms and meals will be served in the resident rooms while the isolation precautions are in place. This is very difficult for everyone and we appreciate your cooperation with the precautions.

Designated caregivers who have a negative Covid19 test result in the past week, may continue to visit on all home areas wearing the necessary PPE for that home area.

Take care and be safe,

Janet Morris
President and CEO
