UPDATE TO ALL FAMILY AND FRIENDS

Hello, we are very happy to report that we have no positive Covid19 cases.

The rapid testing for staff started yesterday and as with all new processes there are adjustments to be made. Every day will see improvements working toward a faster process.

We have resumed admissions to St. Pat's. All new people moving into the Home have a negative Covid19 test and upon admission must isolate for a 14-day period. This is not the best way to move into our Home but it is a safe way for everyone.

Be well and stay safe,

Janet Morris
President and CEO
