## **UPDATE TO ALL FAMILY AND FRIENDS**

Hello, we have received notice that the person who had a rapid test that was positive has now been confirmed positive with a PCR test. Wexford will remain on full isolation precautions, which includes everyone wearing full PPE (mask, eye protection, gowns); resident meals will be served in their rooms and we cannot hold small group programs. Recreation and physiotherapy services will be provided in resident rooms.

The other home areas will continue on droplet precautions, with masks and eye protection and resident meals will continue in the dining room.

Staff and residents will receive a PCR test this week.

Designated caregivers can continue with rapid tests! You do not need to get a PCR test done.

Be safe,

***Janet Morris***  
President and CEO
