UPDATE TO ALL FAMILY AND FRIENDS

Hello, today we have been notified of a positive sitter case who provided one to one support for a resident on Kilkenny. The residents on Kilkenny will be placed on isolation unfortunately. Meals will be served in their rooms and PPE requirements are droplet contact precautions which is gown, mask and eye protection. The residents will be swabbed for Covid 19 starting tonight and tomorrow. Based on the receipt of these results, the droplet and contact precautions may be modified by Ottawa Public Health.

Each situation is reviewed and specific requirements are determined based on a risk assessment. Each situation will result in different protocols based upon this risk assessment completed by Ottawa Public Health.

Today all of the Donegal residents were also swabbed for a PCR test as per Ottawa Public Health's direction.

Be well and stay safe,

Janet Morris
President and CEO
