## **UPDATE TO ALL FAMILY AND FRIENDS**

Hello, we have received a confirmed positive PCR result for the staff member who had a positive rapid test yesterday. The residents who were a close contact will remain on isolation precautions. These residents will have a PCR test done today and again on day 8 from the last contact.

Staff who worked on the home area with the positive staff member will also be tested as a precaution.

As of last week, all staff and sitters who are not vaccinated are now being rapid tested at the start of every work day. Those who have been vaccinated, with one or two doses will continue to be tested every 48 hours, up to 3 times per week. This will ensure early identification of any potential positive cases and limit exposure.

Be well and stay safe,

***Janet Morris***
