UPDATE TO ALL FAMILY AND FRIENDS

Hello, the recent changes to the Covid19 protocols are going well. Although it is great that all of the vaccinated visitors and staff no longer require a rapid test, it seems too quiet in the lobby! We look forward to the time when people can gather and visit in the lobby again.

We do have one update from the guidelines that were implemented last week. The new screening question is: 6. In the last 14 days, have you travelled outside of Canada **AND** been advised to quarantine per the federal quarantine requirements? If you are fully vaccinated and are exempt from quarantine requirements you are able to visit in LTC homes. If you have someone living with you who is also exempt from the federal quarantine requirements there is no restriction on visiting. The screening tool will be changed in the next few days.

We are very thankful to two of our wonderful volunteers, Christine & Carolyn O'Meara, who knitted a number of cuffs for our residents. These cuffs provide a tactile experience for residents who enjoy feeling different shapes, textures and fabrics. These are now in use across the home. Thank you Shawleen Robinson for coordinating this.

Be well and take care,

Janet Morris
President and CEO
