UPDATE TO ALL FAMILY AND FRIENDS

Hello, we have now had further discussion with Ottawa Public Health.

All staff who provided direct care to the resident who has Covid19 will be tested as well as anyone else in close contact with the resident.

There are 4 other residents who had contact during meals who are now in isolation and they have had a Covid 19 swab completed. They will be re-tested in 7 days as well and will need to remain in isolation for 10 days. The families of these residents have been contacted.

All other residents on Waterford can continue to have meals in the dining room and are not in isolation.

Be well and safe,

Janet Morris
President and CEO
