UPDATE TO ALL FAMILY AND FRIENDS

Hello, unfortunately we have had 2 new positive rapid tests for staff on Donegal and on Waterford. There are now residents who are in isolation due to close contact with these staff members. Individual family members will be contacted.

We were able to take a number of residents off of isolation yesterday on Cavan, Carlow and Kilkenny. There are some residents who remain on isolation due to the date of their close contact with a positive case. Residents who have been a close contact continue to be tested and as soon as they are cleared through testing and after their 10 days of isolation they can come off of isolation.

There are also residents who are in isolation as they have some symptoms although there was no identified close contact. This changes daily as people show symptoms, are tested and we await the results.

We remain in whole home outbreak.

Please stay safe and keep well,

Janet Morris
President and CEO
