UPDATE TO ALL FAMILY AND FRIENDS

Hello, first I would like to correct an error in yesterday's update. Galway is off of isolation today not yesterday. My apologies for the mix up in dates.

Today a companion for a resident living on Galway tested positive on a rapid test. There are 5 residents affected and they will unfortunately have to go into isolation and their families will be contacted directly.

A number of residents on different home areas have had or are having their day 7 PCR test completed over the next few days. These results are typically coming back much more quickly and a negative result means that the resident can be off of isolation after the 10th day from their close contact.

Today there are 17 staff members who are considered active Covid19 cases and 4 active resident cases. This will change daily as staff and residents are resolved or there are new cases. We also have a number of staff members who are off work as they have had a close contact in the community and therefore must isolate for 10 days.

Take care and be safe,

Janet Morris
President and CEO
