## **UPDATE TO ALL FAMILY AND FRIENDS**

Hello, we are currently outbreak free at St. Pat's! We do continue to have some people testing positive on rapid tests with the identification of anyone who was a contact and the necessary follow up testing completed. If any resident is considered a contact their family will be notified.

### **Window Cleaning**

The scheduled annual window cleaning has begun today. Over the next few days you will see window cleaners at St. Pat's for the exterior of the windows. Interior window cleaning by the contractors is not currently available due to the required Covid19 protocols. We will continue to monitor for options.

### **New Menu**

The Resident Council has approved a new menu. This new resident driven menu cycle will launch Monday July 11. We look forward to evaluating this menu over the next 2 cycles (6 weeks) with an assortment of feedback options for residents, family and staff which will be implemented. Stay tuned!

Be well and stay safe,

***Janet Morris***
