UPDATE TO ALL FAMILY AND FRIENDS

Hello, the outbreak on Cavan is over and there are no other outbreaks at this time.

Designated Caregivers

There are some designated caregivers who do not meet the vaccine requirements to visit in St. Pat's. They have been visiting outdoors, however, as the weather gets cooler we are looking at options for visits that are comfortable for the residents. The plan is to have a structured visiting process for these designated caregivers. They would visit in a room set aside for visiting on the ground floor and would not be going to the resident's room or the resident home area. This will allow them to visit with their loved one in a scheduled and structured way.

Town Hall Meetings

During July and August, we held Town Hall Meeting on the Resident House Areas to get input from residents, families and staff regarding what Quality of Life means for the people living at St. Pat's and what Person-Directed Care means to you. Unfortunately, five of the sessions were cancelled due to outbreak or other factors. We have now rescheduled these missed meetings for next week:

- Cavan – October 11th @ 1:30pm
- Donegal – October 11th @ 3:30 pm
- Donegal – October 13th @ 1:30pm
- Carlow – October 13th @ 3:30pm
- Carlow – October 14th @ 1:30pm

The discussion questions for the Town Hall Meetings is attached with today's e-mail.

Be well and stay safe,

Janet Morris

President and CEO
