UPDATE TO ALL FAMILY AND FRIENDS

Hello,

We are currently in suspect outbreak on Galway with one positive resident case of COVID. We are awaiting a test result for another symptomatic resident on Galway. If it is positive, Galway will be in a confirmed outbreak.

Please advise any family members and friends that may be intending to visit your loved one over the holidays that St. Pat's Vaccination Policy requires three COVID vaccinations for both designated caregivers and general visitors. A reminder that we do have an indoor visiting process for visitors who do not meet the policy.

As there are many viruses circulating in the community, please be vigilant with hand hygiene and do not visit if you have any respiratory or gastrointestinal symptoms.

Be well and stay safe,

Janet Morris
President and CEO
