UPDATE TO ALL FAMILY AND FRIENDS

Hello, unfortunately we have a couple of home areas who have an enteric (gastrointestinal) outbreaks right now:

- Galway 1 active cases
- Carlow 3 active cases
- Wexford 0 active cases

These outbreaks will continue until 5 days following the last resident's symptoms.

There was also a respiratory outbreak (not COVID) on Galway but all of the residents are off of isolation. The outbreak continues until April 8.

There is no limitation for designated caregivers to continue to visit during an outbreak. However, general visitors cannot visit on a home area with an outbreak, or with a resident who is experiencing any symptoms and on isolation. This cannot always be predicted as someone may feel well today but tomorrow they have some symptoms. Please let your family and friends know if they are general visitors.
