UPDATE TO ALL FAMILY AND FRIENDS

Hello, we remain outbreak free!

New Roles and Positions

We are very pleased to share that we are adding some new positions and roles at St. Pat's as outlined below:

1. We are adding some additional housekeeping hours on weekends as well as a position to support additional cleaning in the home areas.
2. We are adding a new evening Behavioural Support PSW to support the residents with dementia and responsive behaviour.
3. We are adding a new role to the home areas – RPN Quality Care Champion. There will be 9 people in this new role, each one will be working on one home area supporting the whole team in the delivery of quality care. They will work with the RPN, PSW, RN, and other staff to address quality of care and to proactively address emerging challenges.
4. We are adding two additional recreation staff to provide programs on evenings 7 days per week.
5. We have already added an additional RN on nights, so that there are 2 scheduled RN's in the building.
6. We will be adding some additional administrative support staff to support the various clinical teams and managers.

These positions and roles have been carefully considered to address concerns and areas of improvement raised by staff, Family and Friends Council and Residents' Council, and made possible by increased funding recently announced by the Ministry of LTC. We are thankful for the feedback we have received and for this additional funding to improve the care and services provided by the staff. The recruitment for these new positions is underway and we will fill the positions as soon as feasible.

10th Anniversary Celebration

We are having a party! We have provided an invitation to each resident for themselves and one guest, for the launch of our celebrations for 10 years in our new building. It is amazing that we are almost at 10 years since the new building was opened and the residents moved into their new home. The information is provided below for this event.

*Building on our Past, Celebrating our Present
