UPDATE TO ALL FAMILY AND FRIENDS

Hello,

Outbreak Status

We are currently outbreak free!

Nurse Practitioner

We now have a Nurse Practitioner (NP) working with the home through the Regional Geriatric program and collaboration with the Ottawa Hospital. The goal of the Ontario Health East is to reduce avoidable transfers to the emergency room. The NP is now part of the circle of care of any resident who gets referred by the RN or physician or has been at the hospital emergency. We welcome Rebecca Roberts as our NP.

Be well and stay safe,

Monique Patterson

Interim President and CEO
