## **UPDATE TO ALL FAMILY AND FRIENDS**

Hello,

### **Outbreak Status**

We are currently outbreak free!

### **Recreation Calendars and Menu on Website**

The current recreation calendars, home wide and one for each resident home area, are posted on our website. The current menu is posted as well. These provide families an opportunity to find out what is happening at St. Pat's on a daily basis. [Link to Calendars and Menus](#)

### **Reminder: Registration of License Plates**

If your loved one has been at St. Patrick's Home for more than five years, we kindly ask that you update your license plate information with us. When parking permits were originally set up, they were issued with a five-year expiry. Since we have begun enforcing parking registrations, we have identified cases where families were ticketed despite being previously registered due to expired information. Please provide your current license plate details to Reception, and they will forward the information to Robert for updating. If you do receive a ticket for this reason, please bring it to Robert Kluge or Paul Harris and we will have it cancelled. Thank you for your cooperation.

### **Construction Phase Begins**

Starting April 7, fencing will be installed around the green space at the front of St. Patrick's home as we begin an exciting new chapter - the construction of our new seniors' apartment building!

You may notice some increased construction traffic during this time. There will be impact on our existing parking spaces, but we will try to minimize this as much possible. We are in the process of organizing additional and potentially off-site parking as construction begins.

Thank you for your patience and support as we move forward with this exciting development for our community.

If you have any questions regarding the construction process, please contact [housing@stpats.ca](mailto:housing@stpats.ca)

Kind Regards,  
*Monique Patterson,*  
President and CEO
